14%

Leadership, persuasive, goal-driven

Top Career Recommendations

Personalized career paths based on your unique profile

1. Computer Science & Software Development

MATCH 53%

Frontend Developer

53%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Tech CS > B.Sc Computer Science > BCA

Get Started:

1. Explore Frontend Developer through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to frontend developer

Backend Developer

53%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Tech CS > B.Sc CS > BCA

Get Started:

1. Explore Backend Developer through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to backend developer

Fullstack Developer

53%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Tech CS > BCA > BSc CS

Get Started:

1. Explore Fullstack Developer through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to fullstack developer

2. Cybersecurity Networks & Emerging Tech

MATCH 51%

Cybersecurity Analyst

52%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Tech CS > Cybersecurity Certifications (CEH) > BSc IT

Get Started:

1. Explore Cybersecurity Analyst through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to cybersecurity analyst

Blockchain Developer

52%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Tech CS > BSc IT > Certification Blockchain

Get Started:

1. Explore Blockchain Developer through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to blockchain developer

Drone Systems Operator

50%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

Diploma UAV Operations > Certificate Drone Pilot > ILT Drone Systems

Get Started:

1. Explore Drone Systems Operator through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to drone systems operator

3. Entrepreneurship & Product Management

MATCH 50%

Product Manager

50%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Tech + MBA > BBA + MBA > PG Diploma Product Management

Get Started:

1. Explore Product Manager through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to product manager

4. Data AI & Analytics

MATCH 48%

Data Scientist

52%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Sc Statistics > B.Tech CS (AI) > B.Stat

Get Started:

1. Explore Data Scientist through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to data scientist

Machine Learning Engineer

52%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Tech CS (AI) > B.Sc Computer Science > Integrated M.Tech (AI)

Get Started:

1. Explore Machine Learning Engineer through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to machine learning engineer

Data Analyst

52%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Sc Economics (with stats) > B.Sc Statistics > BCA

Get Started:

1. Explore Data Analyst through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to data analyst

5. Design Media & Creative Industries

MATCH

45%

UX/UI Designer

50%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Des Product > B.Des Graphic > BFA

Get Started:

1. Explore UX/UI Designer through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to ux/ui designer

Animation & VFX Artist

50%

Confidence: Low

Why This Fits:

- Strong Computer Science marks (90) — good foundation for this field.

Study Path:

B.Des Animation > BA Multimedia > Diploma VFX

Get Started:

1. Explore Animation & VFX Artist through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to animation & vfx artist

Graphic Designer

36%

Confidence: Low

Study Path:

B.Des Graphic > BFA > BA Multimedia

Get Started:

1. Explore Graphic Designer through online courses or workshops
2. Connect with professionals in this field for informational interviews
3. Start a small project related to graphic designer

Skills to Develop

Personalized skill development recommendations based on your profile
